SUMMARY

Full-stack web developer and IT undergraduate with hands-on experience building Python/Flask applications and a certified foundation in RPA via UiPath. Comfortable across the stack — from database design with SQLAlchemy to responsive front-end interfaces. Proven ability to ship under pressure (Hackathon project). Actively levelling up in DSA and automation; seeking an internship where I can contribute to real products from day one.

EXPERIENCE

QSpider — *Web Developer Intern*

2026

- Built and delivered responsive multi-page web applications using HTML, CSS, and JavaScript under mentor guidance, applying modern layout techniques including Flexbox and Grid.
 - Implemented dynamic DOM interactions and form validation in vanilla JavaScript, improving input accuracy and reducing user-facing errors during testing.
 - Practised version control workflows using Git and GitHub, including branching, committing, and merging across collaborative tasks.
-

PROJECTS

YouTube Comments Analyzer github.com/vishnu2006034/YouTube-comments-analysis

Mar 2025

- Built at SVCE Hackathon — analyzed 1,000+ timestamped comments per video using Google Gemini API; performed sentiment analysis and generated actionable content recommendations for creators.
- Tools: Python, Flask, Google Gemini API, HTML/CSS

Hospital Management System github.com/vishnu2006034/healthcare

Jan 2025

- Developed a full-stack web app managing 200+ patient records with admission, discharge, and workflow tracking; structured the SQLAlchemy schema to support multi-department queries with minimal joins.
- Tools: Python, Flask, SQLAlchemy, HTML/CSS

Employee Management System github.com/vishnu2006034/employee-management

Dec 2024

- Co-developed a Flask application for managing employee records, shift scheduling, and attendance tracking across a 2-person team; personally owned the backend CRUD logic and database migrations.
 - Tools: Python, Flask, SQLAlchemy, HTML/CSS
-

EDUCATION

Jeppiaar Engineering College , Chennai

Sept 2023 – Present

B.Tech in Information Technology • CGPA: 8.2 / 10.0

SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL

Frameworks & Libraries: Flask, SQLAlchemy, RESTful APIs

RPA & Automation: UiPath Studio, UiPath RPA Explorer (Certified)

Tools & Platforms: Git, GitHub, Netlify, Render

Currently Learning: Data Structures & Algorithms (LeetCode), React
